

# To Your Health: October 2018

## Project UP-BEAT Grant Ends After 2 Years of Providing

Since 2016, Project UP-BEAT, a grant awarded to Whitney Young Health, has provided HIV testing, counseling, referral and linkage to primary/specialty care, behavioral health, case management and peer services to over 155 people.

As of earlier this month, the Project UP-BEAT grant sadly ended. We are so incredibly thankful for our hard-working staff, as they were dedicated to making every patient's life easier so they could receive all of the healthcare they needed. Our [CPTS Program](#) will still be providing much-needed HIV/AIDS testing and treatment services to our current and new clients.

## Alliance for Better Health Hosts "Healthy Together Live" at Whitney Young Health

Last week, [Alliance for Better Health](#) hosted its latest "Healthy Together Live" at Whitney Young Health.

The event showcased the achievements of Whitney Young Health's mobile health unit, [Whitney on Wheels](#). In the past year, WOW has added [Rehabilitation Support Services, Inc.](#), [Hope House, Inc.](#), [North Albany Academy](#) and [Hospitality House](#) to places they provide primary health care.

We look forward to continuing this partnership in building health equity!

# Whitney Young Health in the Community

September was a busy month for our Community-Based Programs staff!

From the [Philip J. Schuyler Achievement Academy](#) Back to School Fair, the [Sheridan Preparatory Academy](#) Back to School Blast and the [Watervliet City Schools'](#) annual Homecoming Football game, our staff has been out and about in the community.

Stop by and say hi the next time you see them!
